

# MIDNIGHT OIL COLLECTIVE

Midnight Oil Collective is an arts investment, development, and production group that centers artists as exclusive shareholders. By engaging artists and supporting their vision through to fruition, we generate highly original art that resonates with wide audiences.

We strive for economic and social justice in the arts through equitable project development, mutually beneficial partnerships, and innovative investment strategies.

## CREATORS INVESTING IN CREATORS

### COLLABORATION OVER COMPETITION

MOC operates as a Worker Self-Directed Enterprise. Our members share in all of our successes and are incentivized to work collaboratively.

Our creators work across disciplines and draw from the expertise of their colleagues. We are currently developing plays, musicals, films, TV series, academic works, and more.

### INCUBATOR & ACCELERATOR

When artists first join our collective, they enter an incubator with a diverse cohort of creators, where they receive funding and dramaturgical support. Upon successful incubation, creators enter the accelerator, which provides business and legal aid and access to our network of advisers and partners.

By the end of the accelerator, projects are artistically complete, fully structured, and ready to take on significant investment for the development phase.

### DEVELOPMENT & PRODUCTION

1. Workshop the project and develop design packets
2. Work with our non-profit theatre partners to run production tours.

**ON-STAGE**

1. Develop design packets and proofs-of-concept
2. Pitch the project to studios and production companies

**ON-CAMERA**

### PRODUCTION BUNDLE

In addition, projects that show strong commercial viability through development and production will be included in a diverse portfolio of arts projects as an opportunity for impact investors. These projects will include musicals and feature films with high production costs but broad appeal.

Like a venture capital fund, we will develop many different projects and hedge against the risk inherent in arts production.
